EXPERIENCE

- Junior Flutter Developer , *Halcon Systems Pvt Ltd* **:**
(June 2025 – Present)

Leading the frontend of a **management system** from **scratch** using Flutter, I've actively contributed to **direct client-based** requirement gathering and UI architecture design. I also plan to take ownership of the backend integration in upcoming phases to ensure a seamless end-to-end development cycle.

- TASTE-APP :

Leading the development of a single-window food delivery app similar to Foodpanda, optimizing UI/UX and backend integration. My contributions accelerated development by 30%, ensuring an efficient, high-performance application with seamless navigation and ordering.

- NED ATTENDANCE REGISTRATION APP :

As a front-end developer for the **NED Attendance Registration App**, I streamline CSIT department attendance while ensuring seamless data integrity between teachers and the university office, aiming to **optimize performance** and **expand it** university-wide.

EDUCATION

- NED UNIVERSITY , *Bachelors in Computer Science*
Aug 2024 - present

Currently pursuing a Bachelor's degree in Computer Science, developing strong skills in software development, Computer science etc

- Meritorious Science College, *Pre-Engineering*
July 2022 - June 2024

Completed Intermediate in Pre-Engineering, building a solid foundation in mathematics, physics, and problem-solving

PROJECTS

- MedBot — *A flutter integrated chatBot*
Developed MedBot, a Flutter-integrated chatbot providing instant medical information and assistance through seamless conversational AI

- Weather App— *A flutter integrated Weather App*
Designed and implemented a weather application in Flutter, integrating basic API functionalities, demonstrating skills in mobile development and API integration.

- E-Commerce App —*A flutter E-commerce app*
Developed a Flutter-based e-commerce application from Figma designs as a coursework project, showcasing proficiency in mobile app development and UI/UX implementation

- Crypto Tracker —*A GETX integrated Crypto Wallet*
Developed a Crypto Tracker Wallet using GetX state management

SKILLS
