SUMMARY

Flutter Developer & Full-Stack Engineer who architects high-performance mobile and web interfaces and leads frontend delivery from concept to production along with Client-facing technical lead driving product velocity, UX clarity, and end-to-end integration.

WORK EXPERIENCE

Jr Android Engineer at Appetiser Apps

May 2026 - Present

- Building scalable, production-grade Android applications using clean MVVM architecture, multi-module setups, and Hilt dependency injection.
- Advancing through the "Appetiser SEAL" engineering curriculum using premium Kodeco courses and personal development books to master core coding standards and grow as a software engineer.

Flutter developer at Catalyst IT Solutions

November 2025 - May 2026

- Modernizing NxG trading apps | **JS Invest Pro** , **NxG-AKD** , **NxG-AHL** etc |, by refactoring to the latest Flutter standards and best practices, boosting performance by 45%. Developed native SDKs for PSX feeds and tripled weekly releases (1 to 3). Lead client liaison for iOS TestFlight delivery, achieving a 50% faster "Go-Live" ratio for production builds.

Junior Flutter Developer at Halcon Systems Pvt Ltd

June 2025 - Aug 2025

- Led frontend development from scratch in Flutter, collaborating directly with clients for requirements and iterative feedback.
- Designed and implemented UI architecture tailored to client needs, ensuring an intuitive and user-centric experience.

Full Stack Flutter Intern Lead at Dept Of CSIT, NEDUET

Mar 2025 - Present

Taste Food App

- Led end-to-end development of 3 standalone Flutter apps (Customer, Rider, Admin) with Node.js; promoted from Junior to Lead for delivering a 40% performance boost and 25% faster checkout. Mentored junior devs in MVVM and Firebase, streamlining deployment by 30% while maintaining premium UI/UX standards.

Official Ned Attendance Registration App

- Built a Flutter-based mobile app to streamline attendance tracking for CSIT & Software Engineering departments.
- Integrated faculty and administration systems to ensure data integrity and scalable, university-wide performance.

TECHNICAL SKILLS

Technologies

- Flutter
- Kotlin Compose
- Node | Express
- Python | FAST-API
- Git

Technical Skills

- RESTFUL APIs
- Architecture : MVVM , Clean Architecture
- State Management :
- Riverpod, Provider , getX

Addition Skills

- Data Engineering : NumPy , Pandas , SQL , Snowflake, AWS, Apache Airflow, Docker
- C++ GUI (QT workspace)

PROJECTS

MedBot Flutter Integrated ChatBot

- Developed MedBot, a Flutter-integrated chatbot providing instant medical information and assistance through seamless conversational AI

Crypto Tracker Wallet App

- Developed a Crypto Tracker Wallet using GetX state management

EDUCATION

Bachelors in Computer Science

Aug 2024 - Present

NED University Of Engineering & Technology

- Currently pursuing a Bachelor's degree in Computer Science, developing strong skills in programming, software development etc
- Current CGPA: 3.879
